Snow Door™: Stainless Steel Soffit Cover (Pat. No. D954,249)

Our Snow Door™ is a seasonally adjusted stainless steel soffit door that helps prevent snow infiltration into barn attic. It is resistant to corrosion and wind damage.

Details: 4' door length comprised of 1' windows that collapse to 1' overall length when open for optimal air intake. Stainless steel trim part (1"x1.5"x4') is pop riveted to door to attach to building.
